

**SWEDESE**  
Presenting News 2014

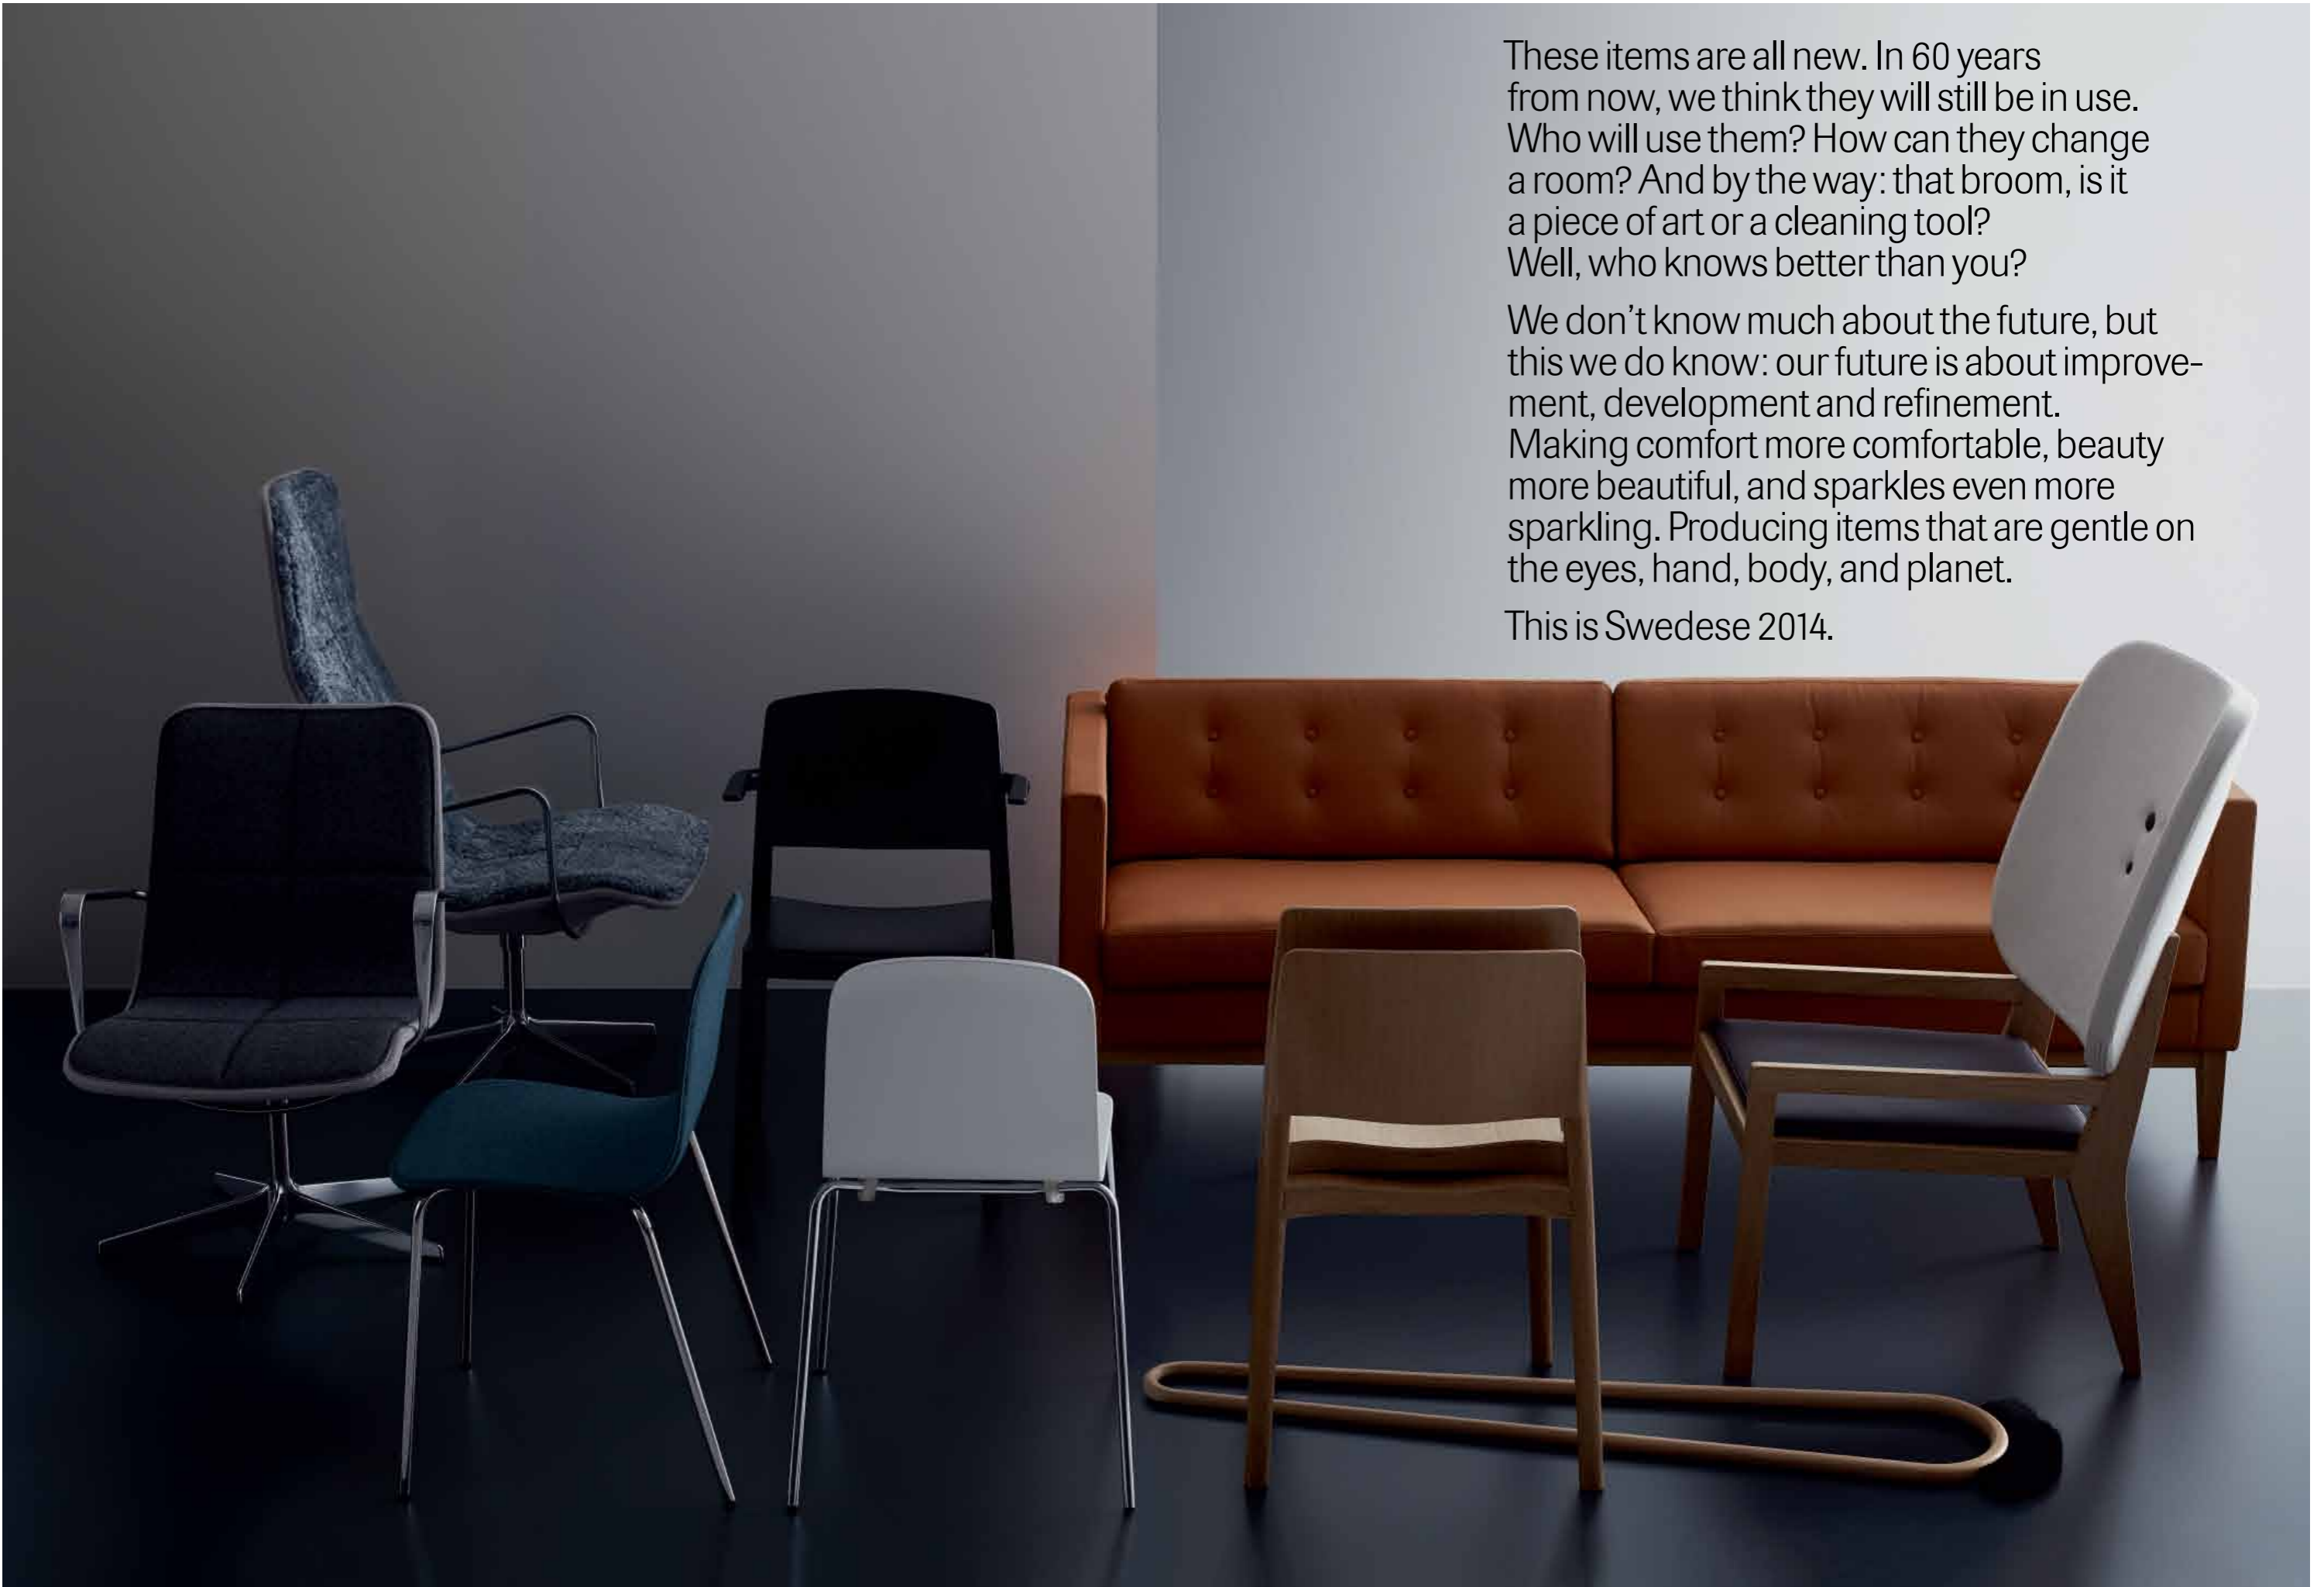

Exclusively By :

**UTOPIA**  
L I V I N G

These items are all new. In 60 years from now, we think they will still be in use. Who will use them? How can they change a room? And by the way: that broom, is it a piece of art or a cleaning tool? Well, who knows better than you?

We don't know much about the future, but this we do know: our future is about improvement, development and refinement. Making comfort more comfortable, beauty more beautiful, and sparkles even more sparkling. Producing items that are gentle on the eyes, hand, body, and planet.

This is Swedese 2014.
